<b>Hindko [hno] 4 people</b>	<b>Indus Kohistani [mvy] 4 people</b>	<b>Khowar [khw] 4 people</b>
Raja Tasawar (C) Raja Wasal Ahmed Arshad Ali Nasir Ahmad	Talib Jan (C) Fazal Haq Kifayat Ullah Mutabar Shah Rashid	Farid Ahmad Raza (C) Gul Muhammad Shami Akbar Ali Atif Atta Hussain

**Executive summary**

This was the 2nd in the series of workshops on curriculum and instructional materials development for the newly established MLE projects. The workshop scheduled a 6-day from April 30 to 4 May in Islamabad. Each language group participated individually for two days. None of the language groups could complete the tasks from the previous workshop, especially the frequency count of letters and functors, LNA, etc. For this reason, they spent a lot of time working on that during this workshop. Indus Kohistani spent a good amount of time on letter frequency count as they had only used two short texts. All language groups still had some issues to resolve regarding their LNA survey results.

In general, all language groups liked the individual sessions. Most of the participants mentioned that now they understood and where they have to go now. One new member joined Hindko language group in place of one trained member.

Due to the death of the mentor of the Shina language group and immaturity of their MLE team, they dropped out from FLI's training and will not be able to continue.
